VOL.10 NO.15

UNIVERSITY PREMIERES TELE-COURSES

The University of Winnipeg will be the first post-secondary institution in the province to televise classroom lectures to an urban audience.

Beginning this fall, lectures in three degree-credit courses will be shown on at least one local cable television station.

Curtis Nordman, co-chair of the University's Telecommunications Committee, sees the project as a chance "to get in on the ground floor of the rapidly advancing technology."

"Broadcasting lectures from post-secondary institutions is inevitable, so we want to be the first in this area," said

Nordman, dean of continuing education.

Instructors and students will be the "stars" in this "series" as cameras will attempt to capture a dynamic classroom experience. "We want to avoid the 'talking head' type of presentation," said committee member Katherine Schultz. "We'll show class participation and try to use the full potential of this visual medium to make the lectures interesting."

While all cable subscribers will be able to view lectures, only registered students who complete the course work can receive credit towards a degree. Televised lectures will

be supplemented by individual student-instructor telephone contact and, possibly, tutors. Procedures for writing exams, submitting assignments and conducting labs will also be put into place.

According to Sohrab Abizadeh, also co-chair of the Telecommunications Committee, the purpose of this venture is to increase accessibility to the University. Many people who contemplate attending University are limited by several factors, including distance, disabilities, work schedules and family commitments.

"Broadcasting courses would give these students in-

Reception Honours Retirees and Long-Service Employees

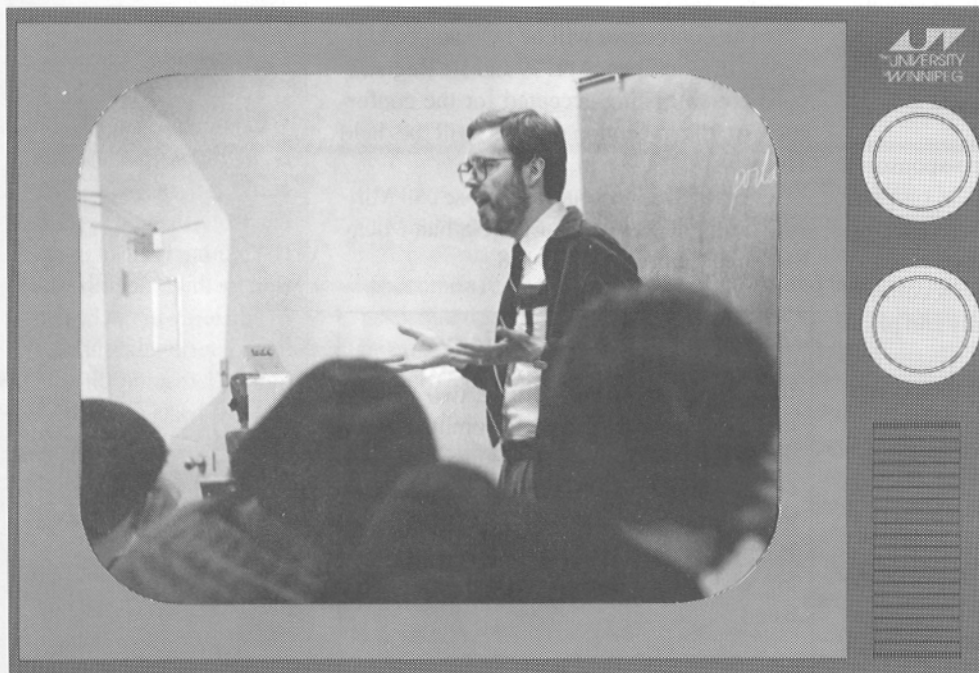

A reception will be held on Wed., May 5 from 2:30 - 4 p.m. in Riddell Hall Cafeteria. Honoured guests are those retiring from the University this year and employees who have served the University for 25 years.

Retirees

Peter Derksen,
Physical Plant
George Epp,
Menno Simons College

Long-Service Employees

Danappa Chekki, Sociology
Lionel Ditz, Media
Manfred Heidrich,
Germanic Studies
Franz Kac, Physical Plant
Barry Kelly, Psychology
Andrew Lockery,
Geography
Ross McCormack, History
John McDermott, History
Perry Nodelman, English
Ron Norton, Psychology
Victor Olshevski,
Economics
Peter Pauls, English
Shirley Payment, Library
Ernest Samulaitis,
Technical Services
Manly Spigelman,
Psychology
Wesley Stevens, History
Robert Young, History

The **UNIVERSITY**
of **WINNIPEG**

Prairie Region Health Promotion Research Centre Established

The newly established Prairie Region Health Promotion Research Centre will link researchers at the Universities of Winnipeg, Manitoba, Brandon and Regina with those at the University of Saskatchewan, where the centre is based. Together with communities and agencies across Manitoba and Saskatchewan, the centre will foster research into ways of promoting health.

The Prairie Region Centre's purpose is to encourage health promotion studies by university-based researchers in many fields, including social sciences, health sciences, education, commerce, physical education, social work and others.

Jeffrey Patterson, senior research fellow at The University of Winnipeg's Institute of Urban Studies, is a member of the committee that developed the application for centre funding. He says the committee, which is made up of representatives from the five universities, will continue to help the centre's outreach program, and to ensure that knowledge development takes place.

The research will focus on finding the most effective ways to foster healthy lifestyles and to improve living and working conditions which affect health and well-being. The centre will also build partnerships between researchers, communities and policy makers.

The prairie region presents a unique context for health promotion research and action. In both Manitoba and Saskatchewan, rural communities are experiencing stressful economic and social change, and aboriginal communities are struggling for greater control of their own destinies. The centre will help to focus attention on ways of promoting health in these communities, as well as in urban centres.

The centre will build a network between the five prairie universities. Each institution has its strengths; collaboration will enhance the impact of the research program on outstanding questions concerning health promotion.

Conference Addresses Special Needs

"Meeting the Challenge: Enabling Technology in Special Education and Employment" is a conference on technologies and techniques available to enable challenged individuals to participate more fully in society.

The conference is open to anyone involved in providing support to physically, developmentally or learning disabled individuals.

"Meeting the Challenge" is co-sponsored by The University of Winnipeg and Computer Access for Special Students. Conference organizers hope to increase the awareness of educators and others with regard to accommodating the special needs of mentally and physically challenged individuals in schools and workplaces through the use of computer technology.

According to Miriam Unruh, coordinator of the Nathan Micay Resource Centre, the conference is the first of its kind to be held at The University of Winnipeg.

Unruh, who is helping to organize the conference, says there will be a number of different sessions held over two days. She says

interested individuals who are unable to make the conference may attend the reception, as registration is separate. "It provides an opportunity to meet and talk with conference presenters," she says.

The conference will be held at The University of Winnipeg, Apr. 29 and 30. Registrations are still being accepted for the conference or the reception, which will be held Thurs., Apr. 29, 4 p.m. - 6 p.m.

For further information, please call Miriam Unruh, coordinator of the Nathan Micay Resource Centre, at 786-9178.

Two Important Additions

In the last issue of **in edition**, two faculty members were inadvertently omitted from the article on "NSERC Announces Faculty Grants." **Don Kerr** (physics), who is sharing a project with Steen Dannefaer, and **Barry Blackburn** (chemistry), who is working with Marie Novak, should have been listed.

in edition is published every two weeks during the regular academic session by University Relations, The University of Winnipeg, 4W16 - 515 Portage Ave., Winnipeg, Manitoba R3B 2E9.

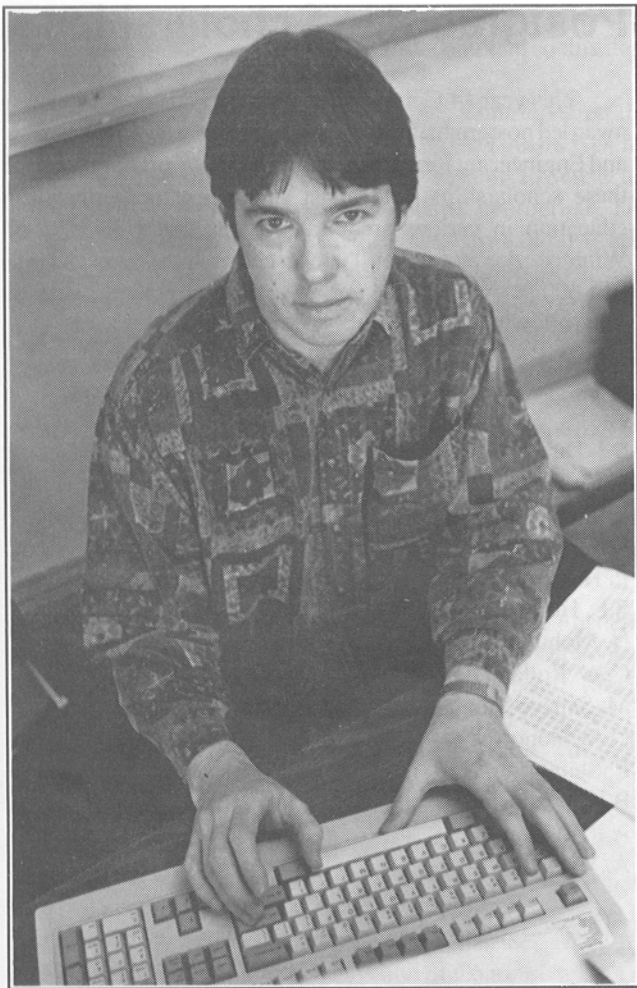

Editor:
Lois Cherney
Communications Coordinator

Telephone:
(204) 786-9134
Fax: 783-8983

Comments, suggestions and submissions are welcome. (All material is subject to editing.) This is the last regular issue of **in edition** for this academic year. **in edition** will not be published during the summer, but will resume on a bi-weekly basis in September, 1993.

in edition is printed on recycled paper. Keep the cycle going: After you've finished reading **in edition**, please place it in your Paper Grower tin.

Alumnus Returns to University as Volunteer

The University salutes all its volunteers, including Mark Bezanson, during National Volunteer Week, Apr. 18-24.

Alumni of The University of Winnipeg have a knack for finding their way "home."

For Mark Bezanson (BA'85, BEd'86), the route back to his alma mater has been through voluntarism. "I remember as a student I always felt very comfortable here. I really enjoyed the friendly atmosphere and the professors were great," said Bezanson. "Now, as a volunteer, I can give something back to the University."

Last spring Bezanson responded to a request for volunteers in *The University of Winnipeg Journal* and has been working in University Relations since October, 1992. Bezanson devotes about 15 hours each week to the department researching "lost" alumni and updating computer records.

With 12 years of experience in the education system as a teacher and principal, Bezanson brings excellent research and people skills to his volunteer position. He is also a self-taught computer whiz.

"Mark is a dedicated, capable volunteer with great computer skills," said Brian Daly, director of alumni and advancement. "His work helps us to keep our database up-to-date, which is essential to maintaining contact with our alumni."

In addition to his volunteer work, Bezanson is currently pursuing his dream of establishing his own business. "I'm exploring a new career and ways of adapting my skills," he said. "I am putting together a business plan to start a consulting firm for training and development in small businesses. This project has been at the back of my mind for a long time."

Bezanson sees volunteering at the University as a way to help him reach his goal. "My position at the University has increased my level of confidence and self-worth. I can utilize my skills and get the job done. This has encouraged me to try new things."

"Especially appreciate the positive atmosphere in University Relations. The people are friendly and I'm really made to feel part of the department. It feels like home."

TELE-COURSES

continued from page 1

creased flexibility. University would become a realistic option for more people," said Abizadeh, associate dean of arts and science. Initially the audience will be urban, but will likely be expanded to include rural and northern communities, he added.

Current students could also take advantage of the more flexible scheduling and increased caps on these courses. Abizadeh noted that televised courses provide an efficient way to offer more course "seats" without undue strain on classroom space or financial resources.

About \$200,000 has been designated for this project by the Universities Grants Commission and The University of Winnipeg's ACCESS fund. The funding, which is specifically

targeted for this project, will cover start-up costs for the purchase and operation of state-of-the-art equipment, transmission link(s), additional support services for students and instructors, and the renovation of Room 1L10.

This summer Room 1L10 will be transformed into a "studio" with cameras, lighting and sound equipment. It will also be modified to accommodate different pedagogical styles and class sizes.

According to Schultz, the University is starting with three courses, one each in humanities, sciences and social sciences, "but we eventually plan to offer enough breadth and depth of courses so that it would be possible for a student to complete an entire degree program by tele-course."

If any faculty member has any suggestions/comments on this project or is interested in becoming involved, please call Psychology Professor Katherine Schultz at 786-9853.

Urban Studies Builds on City Life

Christopher Leo believes the Urban Studies program is one of the most exciting inter-disciplinary programs at The University of Winnipeg.

"We look at the city as a dynamic environment and examine the issues arising from the various forces at work," says Leo, who coordinates the program.

"Cities have been an important part of human development. Even the buildings and the layout of the city provide a visible history of our ideas."

"But, cities have also become centres for poverty, homelessness and crime," he adds. "Almost any social or political issue takes on a different form in the city." One of the differences became evident during the summer of 1992 when residents of the city and rural Manitoba were divided over the stubble burning issue.

To understand these and other issues, the program examines both theoretical literature and practical problems to understand the social, physical, economic and political aspects of urban life.

The City of Winnipeg, itself, provides a good case study for the students. "Our city is experiencing suburban expansion and inner decline," Leo says. "Following the 1972 amalgamation, Winnipeg has attracted ongoing national and international interest. It will be interesting to see how the recently changed political perspective will approach this issue."

While Leo is cautious about speculating where Winnipeg is heading, he believes suburban development must be limited or it will lead to further erosion of the inner city. "Winnipeg needs a strategy for more and better housing within the perimeter," he says.

With support from the Institute of Urban Studies and funding from Canada Mortgage and Housing Corporation (CMHC), Leo is preparing a paper on the politics of redeveloping Edmonton's inner city. Because Winnipeg and Edmonton are similar, the paper will be of special interest to Winnipeg planners. Leo hopes to prepare a similar paper for Winnipeg next.

"Once the dust settles, I would like to study how the balance of power at City Hall has shifted from property developers to other elements of the business community," says Leo. "I am particularly interested in understanding what really happened."

As the head of the Urban Studies program, Leo is currently working to offer a larger variety of courses to reflect changes in society. This would include focusing more on the roles of women and minority groups within urban life, making resources and subject matter more readily available and adapting the curriculum to meet today's needs. "I would especially like to see an honours program for Urban Studies," says Leo.

This is the fourth article in a series highlighting The University of Winnipeg's inter-disciplinary programs.

Fourteen Students Win NSERC Postgraduate Scholarships

This year 14 University of Winnipeg students have been awarded postgraduate scholarships from the Natural Sciences and Engineering Research Council (NSERC). The purpose of these scholarships is to assist students in furthering their education in various areas of science. All University of Winnipeg recipients won Type A scholarships, which provide \$15,600 per year for the first two years of graduate studies. The following is a list of the 1993 winners:

Name	Discipline
S.J. Duff	Behavioural Neuroscience
G.M. Duhamel	Climatology
E.R. Ediger	Cognitive Science
C. Friesen	Toxicology
P. Hazendonk	Physical Chemistry
S.L. Holm	Cognitive Science
N. Mohtat	Physical Chemistry
C.W. Rolland de Denus	Analytical Chemistry
M. Sabaye Moghaddam	Physical Chemistry
D.A. Slonowsky	Mathematics
E. Steinbring	Theoretical Physics/Chemistry
B.K. Swainson	Mathematics
A.R. Willems	Biochemistry
A. Wong	Biochemistry

Convocation Seating

Changes have been made for seating at Convocation this year. Faculty and staff members will be allowed no more than two tickets each for a reserved section. All other seats will be on a first-come basis.

Summer Rate Available at Duckworth Centre

Effective April 1, fees for membership in the Duckworth Centre have been reduced by 50%. Members will be able to use the facility until August 31.

Senators Elected to Nomination Committee for Chancellor

The report from the Ad Hoc Committee to Review the Structure of Senate Committees was not complete so this item was deferred to the May meeting.

A recommendation from the Ad Hoc Committee on the Status of Women, included in their final report *Toward Gender Equality*, was referred from the Board of Regents to Senate for opinion and whatever action Senate deemed appropriate. The report's recommendation is "that the University explore mechanisms for giving staff an adequate and appropriate voice on governing bodies such as Senate." Senate decided to refer this matter to the Ad Hoc Committee to Review the Structure of Senate Committees.

Senators elected to serve on the Joint Board-Senate Committee to Nominate a Chancellor were reported as follows:

- Bruce Daniels (history)
- Bill Evans (biology)
- Katherine Schultz (psychology)
- Geoff Scott (geography)
- Claudia Wright (political science).

Senate approved the recommendations from the Academic Development and Curriculum Committee to offer two new courses in anthropology on an experimental basis. It was suggested that the course title, "Archaeology of Gender," be reviewed prior to the course becoming permanent. The Academic Development and Curriculum Committee has been authorized to approve each experimental course for a two-year term. Authorization was also given to the committee to report to Senate twice annually, normally in October and January, on all course recommendations.

Three new offerings under the "Armchair Series" of the special interest program in the Division of Continuing Education were supported by Senate: "Armchair Sociology: An Introduction to Sociological Thinking through the Comparison of Ojibway and Contemporary North American Social Traditions," "Armchair Religion: Meditation - the Vision of Oneness," and "Tradition and Change in Religious Context." As well, Senate approved two new courses under the communica-

tions program: "The Art of Fundraising" and "Special Events Planning and Management."

The mission statement put forward by the Collegiate Faculty Council was supported by Senate and forwarded to the Board of Regents for ratification.

The awarding of certificates and diplomas in continuing education was also approved as recommended by the Continuing Education and Community Service Committee for eight students in the Educational Assistant Diploma Program and one student in the Certificate Program in Office Computer Operation.

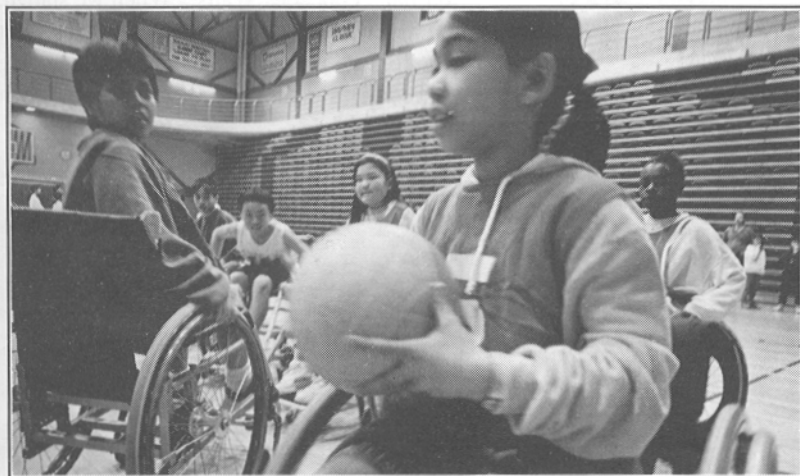

Senate approved the recommendation of the Nominating Committee to appoint Hatem Howlader, Geoff Scott and Lesley Sisler to serve two-year terms on that committee effective immediately.

The Academic Standards Committee asked for guidance from Senate Executive in completing the task of an overall review of starting dates and term lengths which had been directed to the committee by Senate last November. Several other bodies are considering related matters. Senate Executive believes the review should proceed. After some discussion, Senate agreed to instruct the Academic Standards Committee to proceed with the review of starting dates and term lengths, incorporating into this review reports of the committees studying computing, convocation, and registration.

Senate approved the recommendations from the Student Awards Committee to change the names/terms of several existing awards and to withdraw one award because of the inability of the original donors to maintain it. As well, Senate approved two new awards - The Robena (Robbie) Sykes Memorial Scholarship in Canadian Literature and the University Gold Medal in Physical Activity and Sport Studies.

Approval was also given for the offering of two honorary degrees.

At the request of the Ad Hoc Committee on Convocation, the date for the next meeting of Senate has been changed to Tues., May 25 at 9 a.m. in Room 1L11.

Students from John M. King School enjoy their sports day at Duckworth Centre. The day is organized through the University's Community Access Program.

New Department Re-Organizes Structure

Based on recommendations made in the 1991 Report of the President's Committee on the Future of the University, the departments of Computer Services and Technical Services have now amalgamated.

The new Technical Support Services Department is responsible for the provision of support and service to the University in a variety of technical areas. The structure of the new department is outlined below:

DIRECTOR: Ernie Samulaitis Ext. 9220 Rm. 1S07

ASSISTANT DIRECTOR (Systems, Networks and Communications):

David Bell Ext. 9449 Rm. BL05

ASSISTANT DIRECTOR (Information Systems):

Vacant Ext. 9440 Rm. 1S06

SECRETARY: Ingrid Truderung Ext. 9302 Rm. 1S08

I Systems, Networks and Communications

a) Networks and Communications

Ray Lau (Technologist) Ext. 9255 Rm. 1S03

Doug Edge (Technologist) Ext. 9408 Rm. BL07

Mike Dixon (Technologist) Ext. 9311 Rm. BL05

b) Systems Operations

James Dyck (Programmer) Ext. 9847 Rm. BL05

Mike Dixon (Technologist) Ext. 9311 Rm. BL05

II Electronic and Technical

Doug Edge (Coordinator) Ext. 9408 Rm. BL07

Gavin Baird (Machinist-Technician) Ext. 9868 Rm. BL09

Michele Del Rizzo (Data Entry) Ext. 9709 Rm. 1S08

Theological Journal Enters Second Decade

About 12 years ago, McKibbin Watts, associate professor of theology at The University of Winnipeg, and others were concerned about the fact there was no journal available to the United Church membership in Canada. So they decided to do something about it.

Touchstone, a journal that offers biblical, historical and theological reflections on the issues facing the United Church of Canada, is now entering its second decade.

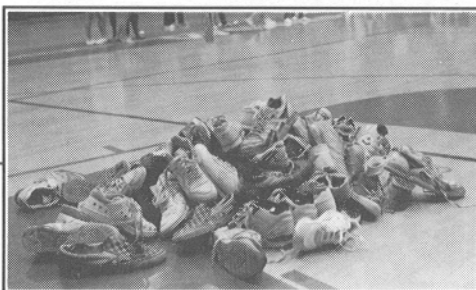

"We wanted to put together a journal designed for both ministers and lay people that would foster reflection at a level not found in a magazine like the *United Church Observer*. At the time, there was nothing like that in Canada, but certainly lots of competition from the United States," says Watts.

"We raised enough money to get started, then sent the first two issues free to ministers and lay members, hoping to win subscriptions," Watts explains. "To our delight, the orders came flooding in."

Watts has been *Touchstone's* editor since the first issue. It is published three times a year and currently has between 11,000 and 12,000 subscribers from across the country.

Watts receives letters regularly praising *Touchstone* as "a voice of reason," and as "a rich, enlightening, thought-provoking source of inspiration." A recent letter came from as far away as Edinburgh.

Touchstone's writers include professors, ministers and contributors from across the country and from many denominations. "A lot of volunteer hours go into producing the journal," concedes Watts. "When we started, we weren't sure what to expect," he says. "But I'm confident now *Touchstone* will continue to be a source of thoughtful expression through another decade."

Last year the Duckworth Centre was the site of a multi-sneaker pile-up. Find yours at this year's Sneaker Day, Fri., May 28.

Challenge and Cooperation Keep the Job Exciting

Dean's Office Secretary Judi Hanson says today's secretaries want to be challenged in their jobs.

National Secretaries Week, Apr. 19 - 23, recognizes the valuable contributions secretaries make to the success of any organization.

Judi Hanson, secretary to both Dean of Arts & Science John Hofley and Associate Dean of Budget & Planning Sohrab

Abizadeh, believes her skills are recognized and appreciated all year round, and Hofley readily agrees. Says Hanson: "He's not the kind of person who'd just give you a pat on the back once a year."

Hanson's office is tucked away in the back of the Dean's Office, but she's right at the heart of the University community. She not only receives a steady stream of faculty, staff and students, but regularly fields queries from the public as well.

"People often call in response to a newspaper article about the University, or if they have a complaint," she says. "One student's mother called recently to see if her son remembered his dentist appointment, and another called to see if a student had made it to class that morning," laughs Hanson. She says as a secretary you have to be prepared for anything.

Hanson knows what skills a good secretary needs, and has been called upon by various departments in the University to hire, or help them hire, a secretary.

"I think the willingness and ability to cooperate is a necessary quality for a secretary," stresses Hanson. Hanson put this ability to good use eight years ago when she started to work at The University of Winnipeg. "I shared equipment with another secretary. We didn't have our own typewriters or AES machines, and we had to take turns typing on alternate days," she recalls. "You had to be cooperative or you wouldn't last long."

Hanson relies on that ability today with the restructuring taking place in the Dean's Office. "I think people tend to resist change," she says, "so keeping a cooperative effort going, keeping everyone up to date on the changes is very important right now."

Hanson believes that secretaries need to be challenged in their jobs, to relieve the repetitive nature of some of the tasks. "I've been really lucky here in that I've been given responsibility and freedom to make some decisions. All good secretaries look for that kind of challenge."

Canada's top klezmer band,
FINJAN,
*will be performing in a
special concert at
The West End Cultural Centre on
Sat., May 8, 8 p.m.
Tickets \$15, available at
The West End Cultural Centre,
Ticketmaster,
and all Music City Stores.*

COMING EVENTS

"Coming Events" is compiled by University Relations. If you are planning a campus event, please let us know. Send the information (in writing) to Lois Cherney, University Relations, Room 4W17. Basic details about your event are required: what, when, where, sponsor, and the name of a contact person. Submissions must be received at least 10 working days before the event.

MON., APR. 26

- **Board of Regents meeting** at 5 p.m. in Room 2L17.

TUES., APR. 27

- The **University of Winnipeg Women's Association Annual Meeting and Potluck Supper** will be held at 6:30 p.m. at President Hanen's residence. For further information call Shirley Payment at 786-9810 or Uma Parameswaran at 269-9713.

WED., APR. 28

- Lectures begin in **Spring Evening Session**.

THURS., APR. 29 TO SUN., MAY 2

- The 22nd annual **Manitoba Schools' Science Symposium** will be held in Duckworth Centre. For further information call 661-0567.

THURS., APR. 29 AND FRI., APR. 30

- Computer Access for Special Students and the University will co-sponsor a conference on technologies and techniques to enable challenged individuals to participate more fully in society. The conference is entitled **Meeting the Challenge: Enabling Technology in Special Education and Employment**. For further information contact Miriam Unruh at 786-9178.

WED., MAY 5

- The **State of the University** address by President Marsha Hanen will be given at 12:30 p.m. in Eckhardt-Gramatté Hall.

- A reception to **honour retirees**

and **long-service employees** of the University will be held from 2:30 - 4 p.m. in Riddell Hall.

SAT., MAY 8

- **Finjan** will be performing at 8 p.m. at the West End Cultural Centre. Tickets \$15 available at the West End Cultural Centre, Ticketmaster and all Music City stores.

MON., MAY 10

- Lectures begin in **Spring Day Session**.

MON., MAY 24

- **Victoria Day**--University closed.

TUES. MAY 25

- The **University Senate** will meet at 9 a.m. in Room 1L11

FRI., MAY 28

- Get those sneakers ready for **Sneaker Day** and **Canada's Fitweek**. If you have any ideas for events or would like to be involved in the organizing committee, please call Lynn Crocker, health and safety coordinator, at 786-9496.

MON., MAY 31

- **Board of Regents meeting** at 5 p.m. in Room 2L17.

MON., JULY 5

- Lectures begin in **Summer Session**.

SUN., JUNE 6

- The University's annual **Spring Convocation** for the conferring of degrees will be held at 2 p.m. in Duckworth Centre.

MON., JUNE 28

- **Board of Regents Annual Meeting** at 5 p.m. in Room 2L17.

THURS., JULY 1

- **Canada Day**--University closed.

MON., AUG. 2

- **Civic Holiday**--University closed.

MON., SEPT. 6

- **Labour Day**--University closed.

TUES., SEPT. 7

- Lectures begin in the Faculty of Arts and Science **Winter Session**.

MON., OCT. 11

- **Thanksgiving**--University closed.

SUN., OCT. 24

- **Autumn Convocation** will be held in Duckworth Centre at 2 p.m.

THURS., NOV. 11

- **Remembrance Day**--University closed.

WED., DEC. 22 - SUN., JAN. 2

- University closed.

MON., JAN. 3

- Lectures resume.
